

Summary:

Brendon is an Architect and Project Manager who has been with ADP since finishing his Master's of Architecture from Columbia University in 2002. Brendon's architectural experience encompasses several market types including commercial, residential, hospitality, religious, and institutional projects. His practical expertise includes design coordination, the complete development of construction documents, NYC agency approvals, and coordination with contractors, material suppliers, engineers, and various consultants.

While at ADP, he has and has assisted a team on several residential and commercial renovations at The Sherry-Netherland Hotel, as well as the design and development of a rooftop restaurant addition to the historic Metropolitan Club. Mr. Snyder has also developed and coordinated exterior restoration projects, many private apartment and house residences, and various interior renovation projects. He currently leads ADP's residential team in the design and construction of comprehensive home renovations and design.
