

Summary:

James Black is an Architectural Designer and Project Manager with eleven years' professional experience. After completing his Bachelors of Architecture at Mississippi State University in 2007, James joined Acheson Doyle Partners Architects in 2008. Overseeing all phases of a diverse portfolio of projects, he has acquired in-depth experience on educational, institutional, religious, hospitality, and residential projects, including renovation and preservation. Most recently, James has worked on multiple state locations for Fusion Academy, a private one-on-one educational institution. As a project manager, James has broad experience with design, 3D computer modeling CAD drafting and detailing, BIM, space planning, historic restoration, construction documents and construction administration. In addition, he has particular expertise in agency filing and building procedures throughout multiple state municipalities.
