

Juan Konno, an Architectural Designer and Project Manager with nineteen years professional experience, has been with Acheson Doyle Partners for twelve years. Having completed his Bachelor of Architecture degree with highest honors at Pratt Institute in 1998, Juan has worked on projects with New York University, The National Park Service, and the Archdioceses of New York and Brooklyn, and previously with the School Construction Authority (SCA), The Dormitory Authority (DASNY) and The City University of New York (CUNY) and has acquired in-depth experience on educational, institutional, religious, hospitality and residential projects, including renovation and preservation. Most recently, Juan is working on the restoration and renovation of The Ryan Visitor Center at Floyd Bennett Field. As a project architect, Juan has broad experience with design, space planning, historic preservation & restoration, detailing, CAD drafting, model making, construction documents and construction administration. In addition he has particular expertise in agency filing and building procedures in New York City.
