

Since joining Acheson Doyle Partners Architects in 2011, Massoud Ghassem has worked on residential, religious, cultural and office projects. Notable projects have been the Fulton J. Sheen Center for Thought and Culture, the Ryerson Avenue Convent and St. Patrick's Old Cathedral. Massoud has also overseen development of drawings and specifications for several brownstone and religious renovation projects.

Massoud has over 30 years of experience with new construction, interior renovation, and the restoration of historic buildings, in both the private and public sectors. Project types have included academic buildings, theaters, corporate offices, museums, hotels, restaurants and residential. He has extensive skills developing technical drawings and details; performing building envelope assessment and analysis, and construction administration.
